#### TIME AND METHOD OF IDENTIFICATION.

(a) A class "A" dealer (breeder) shall identify all live dogs on the premises as follows:

(1) All live dogs and cats held on the premises, purchased, or otherwise acquired, sold or otherwise disposed of, or removed from the premises for delivery to a research facility or exhibitor or to another dealer, or for sale, through an auction sale or to any person for use as a pet, shall be identified by an official tag of the type described in Sec. 2.51 affixed to the animal's neck by means of a collar made of material generally considered acceptable to pet owners as a means of identifying their pet dogs or cats \2\, or shall be identified by a distinctive and legible tattoo marking acceptable to and approved by the Administrator.

\2\ In general, well fitted collars made of leather or plastic will be acceptable under this provision. The use of certain types of chains presently used by some dealers may also be deemed acceptable. APHIS will determine the acceptability of a material proposed for usage as collars from the standpoint of humane considerations on an individual basis in consultation with the dealer or exhibitor involved. The use of materials such as wire, elastic, or sharp metal that might cause discomfort or injury to the dogs or cats is not acceptable.

\*\*\*\*The dogs have not been given individual identification numbers. A class "A" dealer (breeder) shall identify all live dogs on the premises. The dogs must be properly identified.

This affects 16 adult dogs. TO BE CORRECTED BY: 19 SEPTEMBER 2010.

An exit interview was done with the owner and Katy Vernon, ACI.
